Summary	Enthusiastic undergraduate IT student with a focus on full-stack development, mobile application development, and UI/UX design. Experienced in building responsive web and mobile applications using modern technologies. Passionate about developing user-friendly software, solving real-world problems, and creating intuitive digital experiences. Eager to apply technical skills, contribute to innovative IT projects, and continue growing in a professional environment.	
Education	University of Vavuniya Vavuniya https://www.vau.ac.lk	Bsc.in Information Technology September 2023 - July 2026
Projects	MyUniPal – University AI Assistant (Group Project) Figma Design: https://www.figma.com/design/LiM9rB82j3ZfRc7VfeJntD/MyUniPal Developed the frontend of MyUniPal, a university AI assistant mobile application, as part of a group project. Designed and implemented responsive, user-friendly interfaces using React Native and created the UI/UX designs in Figma. Created a personal GitHub repository showcasing the frontend pages and components I developed for the project as part of my individual contribution. https://github.com/ishqafathima/MyUniPal-My-Code-Frontend- MovieApp Developed a responsive movie browsing web application using React and TypeScript. Designed an intuitive user interface and integrated Firebase to support application functionality while ensuring a smooth user experience. https://github.com/ishqafathima/MovieApp
